o innocent neighbors since they have no choice but to live under this growing nightmare. The smell comes first the

s that "feather rain" again. Thousands of feathers drifting to the northwest. Along with the feathers comes the sten

ensify. I started taking MucinexDM for it on Monday, and could not sleep Monday or Tuesday nights due to consta

nd tunnels". Hickman's design includes the manure room as part of the "wind tunnel". Who in their right mind would be contaminating air and dander is causing. I am also sending a copy of this complaint to the MC air quality because, but the families living nearby are dealing with bloody noses, headaches, breathing issues, and itchy skin. WHERE ARE OUR RESOURCES? The problem has started. Which will be this coming Wednesday.

They are exhausting the dander from the living quarters, but are dispersing the waste fines as the exhausted air travels to the other side of the building.

I have been experiencing the sore throats, itchy skin, irritated eyes, drying of nasal passages and headaches. Since Hickmans moved in I find it very difficult to breathe.

ch and dander. This is what my car looked like by 10 am this morning. Those white specks are dander, chicken skin.

I have been coughing. I continued spraying things with Lysol, and using the mouthwash, etc. but nothing seemed to help. I was told to use a humidifier.

Id consider this design to be acceptable? Who would not figure out that if you place manure piles right in front of la
esides the violation of the dander and feathers, it deals with the horrible stench. The State continues to turn it's he
IGHTS??? The County has the duty to protect our health and safety???. This is NOT being done, and my opinion is t

hrough the dropping waste. I could take videos forever, but they would look just like the one I am sending you. Dur

d myself staying indoors, can not barbecue, did not set up our giant above ground pool due to what happened last s

If I was to barbecue I assume I would not have to salt my steaks. I did not order this chicken delivery and I do not w

ent outside of my front door on Tuesday and took photos of the "down" feathers in just that front area around the

rge ventilation fans discharging forced air in a wind tunnel fashion that the forced air is not going to disperse the pad to the Hickman's obvious violations of all air quality issues... including dander, feathers and flies. hat it is because of the influence the Hickman have with the government. May I also comment that Clint Hickman is

ing most days there is enough of a breeze to disperse the exhausted air to where it looks like a fine white haze. In t

ummer with hundreds of drowning flies and Hickman debris filling the pool. Due to the stench and ill affects I have l

ant it. I do not want Hickman's or any of their by-products on my property.

entryway and the water containers, and gathered the feathers up and put them in a baggy. Some feathers were so

articulate fines right out into the neighboring atmosphere? During my research, so far, I have not found any other cause for our Board of Supervisor representative? He is NO help.

he quiet mornings or afternoons when the wind flow is at an almost standstill is when you can see this dust cloud w

et my weeds grow because I can not stand being outside most days. Chickens are naturally dusty animals, shedding

small I couldn't gather them. From coughing so much, my ribcage, chest, stomach, and back became so sore, I crin

fo that does this. I believe that they need immediate corrective action on this. Also, I believe these manure rooms, a

hich resembles "fog". You are lucky if it is not drifting your way. It has been drifting east into the little town of Tono

skin constantly. Combining millions of these animals and adding that Arizona has a dry arid climate compounds the

ge when I have to cough again. I had a friend pick me up more MucinexDM and some cough syrup on Wednesday w

s currently designed, are of an industrial nature, not agricultural. They are purposely designed in this fashion to hav

pah. When I head over into town as I near the haze is when I start smelling that awful stench. Late last night I was n

problem. Particulates from such an operation in these conditions will travel for miles. What I have found is that the

hen in town. I have been pretty much in bed all week. I was to participate in an Easter program this coming Sunday

e extended aeration for drying the manure as part of their industrial fertilizer processing. Please consider this a form

ot so lucky, there was a breeze in my direction.

particulates are the source of the smell,so if you smell it you are breathing it. These particles have been know to ca

at Church, but I called them yesterday and said I won't be able to be there on Sunday. I am still having respiratory p

al complaint.

rry pathogens,etc.. You can not deny it is a very unhealthy environment.

roblems. This is very unusual for me. I am not usually bothered by plant allergies, as some people are with the dese

rt in bloom, so feel that this problem must be tied to the feathers, dander, or manure particles being airborne, and

us breathing them.
